Entry of Amendment

Applicant's amendment filed on Sep. 8, 2005 is acknowledged. Claims 7, 10, 11, 16, 21, 23, 24, 28 and 29 have been canceled by the applicant, thus claims 1-6, 8-9, 12-15, 17-20, 22 and 25-27 are currently pending.

Prior Rejections or Objections

The following comments pertain to the rejections or objections in the most recent Office action mailed on June 9, 2005. Rejections under 35 U.S.C. D.P., 102 and 103 are withdrawn, however, new grounds of rejection are presented below.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-6 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Siegmund (4,919,112). Siegmund discloses a robotic surgical tool and its method of use comprising a distal member (13) capable of supporting an end effector (such as an electrode); and

and first and second components (26 and 29) constrained to move in tandem and in opposite directions generally in parallel to an axial line and rotatably coupled to the distal member so that an advancement of the first component with a corresponding

Art Unit: 3739

retraction of the second component causes the distal member to face a first articulated direction defining a first angle with respect to the axial line; wherein the first angle is within a range approximately between zero and 70 degrees (Figures 1-2 and col. 2, line 39-col. 3, line 56).

Allowable Subject Matter

Claims 8-9, 12-15, 17-19, 22 and 25-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3739

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
